MICROCHIPS FOR DOGS & CATS \$21

DOG VACCINATIONS

RABIES \$6 (Age: 3 months & older)

Rabies vaccines help protect against this fatal disease & is required for licensing. Good for **3 years** if dog is over 1 year old and has proof of prior licensing or proof of prior vaccination by a licensed United States veterinarian. Otherwise, the vaccine is good for **1 year**, regardless of dog's age.

DA2PP \$9 (Age: 6-8 weeks & older)

"DA2PP" or "4-in-1". "Distemper", 2 types of "Adenovirus" (Hepatitis), "Parainfluenza" (Flu), and "Parvo Virus". These are very contagious & potentially fatal diseases. **Age 6 to 16 weeks:** Initial series of 3 vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, the first booster is recommended in one year, then boosters are recommended every 12 to 36 months.

BORDETELLA \$6 (Age: 8 weeks & older)

"Bronchiseptica Bacterin". An upper respiratory bacterial infection. **All ages:** Initial series of 3 vaccines administered 2 to 4 weeks apart. Thereafter, annual boosters are recommended, and sometimes more frequently depending on exposure to other dogs and other factors.

CAT VACCINATIONS

RABIES \$6 (Age: 4 months & older)

Rabies vaccination helps protect against this fatal disease, even for indoor cats. Good for **3 years** if cat is over 1 year old and has proof of prior licensing or proof of prior vaccination by a licensed United States veterinarian. Otherwise, the vaccine is good for **1 year**, regardless of cat's age. "**Purevax**", a non-adjuvant vaccine, can help decrease the risk of cats developing sarcomas (cancer) associated with Rabies vaccinations. It is always a one-year vaccine.

FVRCP \$7 (Age: 8 weeks & older)

"3-in-1". "Feline Viral Rhinotracheitis", "Calici", and "Panleukopenia" which are serious upper respiratory infections. **Age 8 to 16 weeks:** Initial series of 3 vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.

FELV \$10 (Age: 10 weeks & older)

"Feline Leukemia" is a highly contagious and potentially fatal disease. **10 weeks and older:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.

All dogs residing in Riverside City or Riverside County are required, by law, to have a current dog license and microchip.

Unaltered License Fee: 1YR \$100, 2YR \$200, 3YR \$300 Altered License Fee: 1YR \$17, 2YR \$34, 3YR \$49 Late Fee: \$25

License Fees for a Spayed or Neutered Dog Owned by a Person 60 Years or Older: 1YR \$12, 2YR \$24, 3YR \$36 Late Fee: \$15

Be advised: Our department accepts VISA or MASTERCARD with a 3% charge. Credit card payments will NOT be accepted after 8:59pm.

Government issued ID required for all transactions.
