Updates:

Customers are under the impression that we will supply medicine for dogs that have kennel cough and cats that have URI. This is **inaccurate** information. It is up to the vet staff to determine if and how much medicine, will be going home with the animals.

Please do not tell the public that an animal is or is not sick and will or will not be going home with meds or on contract until the adoption exam has been performed and vet staff has made that decision.

Due to reduced staffing and supervision, we will no longer be having volunteers come in on Sundays.

November 4th- December 31st dogs and cats are free to veterans with valid ID.

Dog pricing is \$95 plus \$10 micro-chip, plus license and cats have been reduced to \$5 plus \$10 micro-chip.

I want to let you and any one else know, what a great bunch of employees you have. I enjoyed so much working with them on Sunday at the Super Pet Adoption.

They have a difficult job but still show compassion and patience for the animals. It is hard work, as I found out on Sunday.

Thank you for the opportunity to work with Rachael, Jesus, and all the others.

Sincerely,
Barbara Klein

Saturday was a success by my standards in that 21 dogs were adopted. Don't know about Sunday as I was in Escondido.

Marisa is an excellent team leader and very competent. Don't recall the names of the three other team members, but you would be proud of their skill and performance.

San Jacinto Valley Animal Campus

The San Jacinto Valley Animal Campus has cut back on their clinic hours and is now having clinic volunteers come out on Mondays and Tuesdays only.

Katherine, the Supervising Registered Veterinary Technician, has said that the volunteers are amazing and wonderful. She would like to thank all of the volunteers in San Jacinto and send a special thanks to Barbara and Helen for their hard work and commitment to the shelter. Keep up the good work !
