

Department Performance Report for 11/1/2024 to 11/30/2024

Animal Services' data is extracted from a database within an application called Chameleon. The data reflects all animals impounded and their disposition (when applicable) within the date range it was extracted. This dataset is a snapshot from a dynamic database and displays the activities that occurred at the time the report was run. In accordance with Food & Agriculture Code 32003, all public pounds and shelters shall keep accurate records on each animal impounded that includes the final disposition of the animal. Data entry is fluid and ongoing, updates and corrections may occur following the upload of this report, as animal records are finalized over time. While an animal is staying with Animal Services, the data changes to reflect updates on the animal. Live release rate is the total number of live outcomes divided by the total number of live impounds for the same timeframe. example: if 100 live impounds occurred, and there were 90 live outcomes in the same timeframe. 90 divided by 100 = .9 or 90%. Live impounds are Stray, Owner Sur, Confiscates, and Transfer from Another Agency ONLY. Live outcomes are Adoptions, Return to Owner [RTO], Transfer, and RCDAS Community Cat Program.
