# RCDAS Faces Complex Challenges and High Intakes

- ❖ *Southern California leads the nation in shelter intakes, with Riverside County ranking among the top four largest sheltering systems out of nearly 14,000 shelters and rescues nationwide.*
- ❖ *An average of 82 animals enter RCDAS shelters per day, every day.*
- ❖ *Every seven minutes the shelter is open, a new lost or homeless pet arrives.*
- ❖ *An estimated 97% of the community's pets do not interface with RCDAS in a given year.*

# Outcomes Consulting worked with RCDAS in 2023/2024

- Increase focus on live outcomes.
- Prioritize data transparency and visibility of animals.
- Provide more services at intake.
- Expand foster, volunteer, and adoption programs.
- Expedite movement of animals.
- Build community pet programs based on data.
- Improve customer service and change hours.
- Increase kennel enrichment and exercise.

OUTCOMES  
CONSULTING

# Example: Dog Management Recommendations

- Create a dog flow manager position.
- Create a medical isolation area to house sick and exposed dogs.
- Place beds in all dog kennels.
- Replace intake cages with freestanding kennels.
- House dogs based on behavioral needs, age, health, etc.
- Recruit volunteers for specific dog populations - fearful, small, senior, pairs, playgroup, etc.
- Implement playgroups for assessment and to reduce kennel stress behaviors and use to market dogs.
- Update kennel card design to better market dogs.

## The Five Elements of the Balanced Priorities Model for Government Animal Services

**Pet support and intake** to provide every person and pet with the help they need the most

**Humane care** for every animal that enters the shelter through the duration of their stay

**Live outcomes focus** to ensure every pet has a fair chance at a live outcome

**Public health and safety** to keep people and animals safe, provide community pet support services, and to prevent and respond to cruelty, neglect, and public safety threats

**Community engagement** to welcome everyone to be part of the solution and make it easy for them to help.

# Part 2: RCDAS Data Snapshot

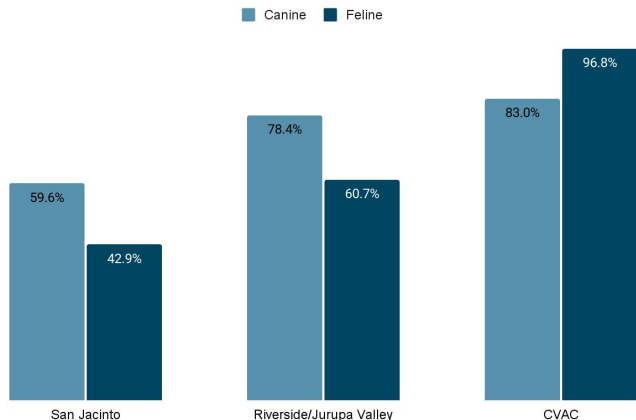

OUTCOMES  
CONSULTING

# What We Have Learned from the Data

RCDAS Live Release Rate by Shelter

January - December 2024

## In reviewing 6+ years of data, we've learned:

- Dog intake is increasing significantly.
- Transport has decreased substantially.
- Cat euthanasia has decreased while dog euthanasia has increased or remained flat.
- The Riverside and San Jacinto campuses take in around 75% of the animals.
- More spay/neuter, community cat, and owned pet services are needed.
- For dogs, adults make up the majority of non-live outcomes. For cats, it's young kittens.
